

# VA Mobile Discussion Series

VA's Mobile Discussion Series provides an opportunity for participants to learn about new VA-developed apps, VA app development and VA's overall digital strategy. The monthly webinars cover a range of topics and demonstrations and always include an interactive Q&A session.

Past recordings are available on-demand at [mobile.va.gov/discussion-series](http://mobile.va.gov/discussion-series), and you can [register](#) online to get calendar invitations to upcoming sessions.

## Featured Presentations

- The November 2017 session on [VA Online Scheduling](#) was one of the most attended VA Mobile Discussion Series sessions to date. More than 220 people participated in the event to learn about the benefits of VA Online Scheduling through My HealthVet.
- In August 2017, more than 200 people tuned in to learn more about the [Rx Refill app](#), which gives Veterans an additional online option to request and track prescription refills from their mobile devices for on-the-go flexibility.
- The January 2018 session gave attendees an overview on [how to implement a VA mobile health app](#) and how these technologies can enhance Veteran care.

## Highlights

- *Shared information on more than 45 different VHA applications and programs since the Discussion Series began in 2014*
- *Attended by nearly 1,000 people each year*
- *Praised by attendees for the thoroughness of the subject matter expert presenters*

## Feedback from Attendees

*"This was one of the best webinars I've ever attended... the team did a great job of answering all the questions. Bravo!"*

*"Excellent idea for information sharing and helping us know where to find resources."*

*"The presentation was very good. I liked the demo by the two subject matter experts. I think it was good to see the app from their point of view."*
