

12,000+ VA care team members received mobile devices in FY 14 and 15. What are they saying?

More than 30 VA Medical Centers have been issued mobile devices, and the program continues to expand throughout 2015.

"This is the wave of the future—the ability to have patient information available wherever you are."

Dr. Charles Atwood
Pulmonary Physician
Pittsburgh, PA

"With my mobile device I've been able to answer questions about new medications right at the patient's bedside."

Dr. Shaman Singh
Hospitalist
Washington, DC

70% of care team members use their device for clinical or patient-care activities

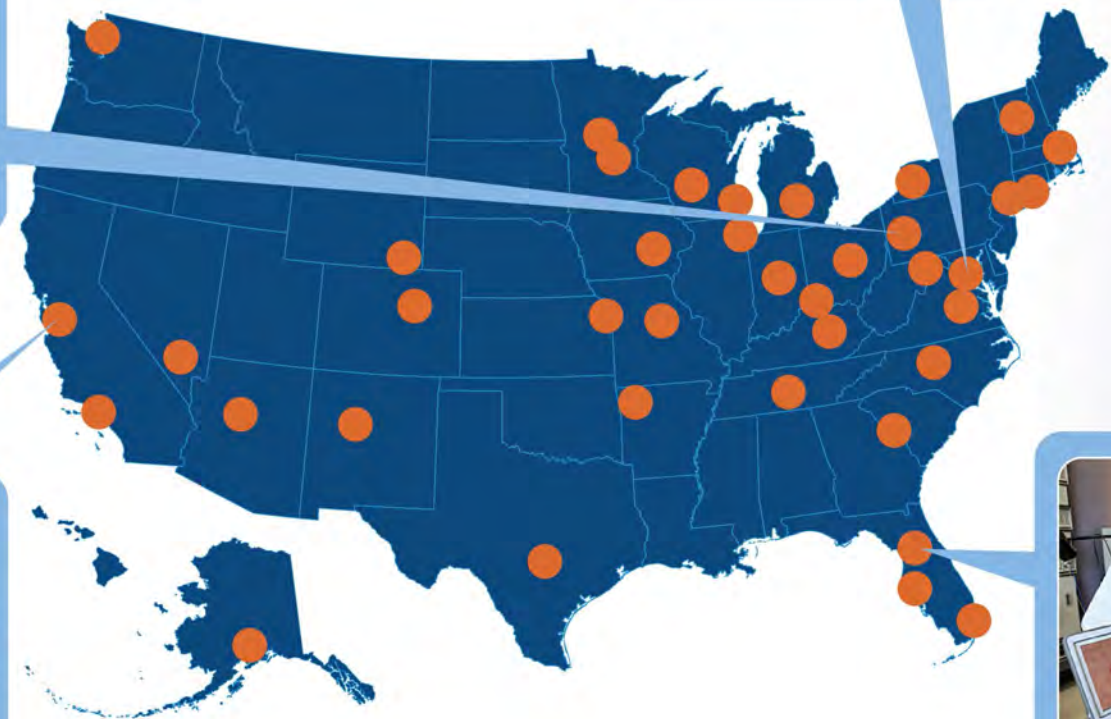

80% of care team members say their device helps save them time in work-related activities

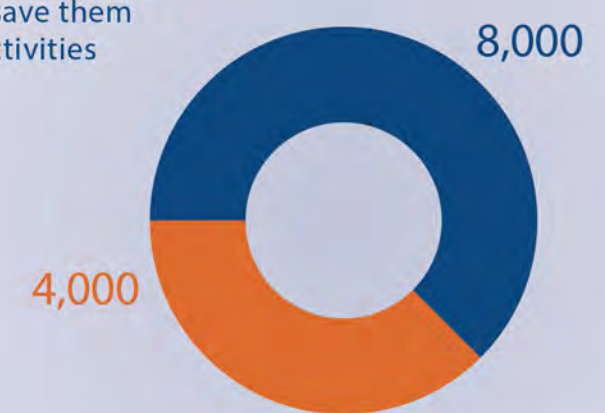

"Honored to meet doctors and Veterans now using [mobile devices] to help treat Vets and families."

Tim Cook
CEO Apple
Palo Alto, CA

"I work in women's health and patients love seeing a clear visual of their condition, this is a great tool."

Dr. Leslee Davis
Women's Clinic Medical Director
Orlando, FL

12,000+ total devices
● Devices delivered in 2014 (64%)
● Devices delivered in 2015 (36%)
