Thank you for joining. We will begin shortly.

U.S. Department of Veterans Affairs

Veterans Health Administration
Office of Connected Care

Patient Viewer

Mobile access to Electronic Health Record (EHR) data

With the Patient Viewer App, VA Care Team members with VistA credentials can:

- Access data from patient EHRs (e.g., consults, medications)
- Graph data from patient records, such as vital signs and lab results
- Enter progress notes
- View orders

Patient Viewer App can also integrate with other apps.

Status

Where we are:

- Formal field test held Winter 2017 for version 3.0.5
- Early adopters continue to test the app
- Making corrections from field test findings

Where we're going:

- Preparing for national release
- Working on future enhancements to include Custom Data View and VA Video Connect (3.1.0), and the addition of Nurse To Do and Patient Education Applets (3.2.0)
- Migration to NextGen and field test of updated versions

Expected national release:

- May 2017 (3.0.5)
