1. **Overview**

Virtual Care Manager enables clinicians to create, view, and join video visits. With Virtual Care Manager, it is easy to invite Veterans' family or caregivers, as well as additional VA staff, to video visits.

2. **Settings**

Select the **Settings** button with the gear icon on the right side of the toolbar, to see the drop-down menu for Preferences, Help and information About VCM.

2.1 **Preferences**

Customize your user experience by selecting **Preferences** from the Settings drop-down menu.

2.1.1 **Contact Info & Colleagues**

The information on the Contact Info & Colleagues tab is used for creating and managing virtual video appointments.

1. New users will need to enter contact information for the first time. Returning or existing users will have some information already included, which should be verified to ensure it is up to date to take full advantage of new capabilities being added to VCM.
2. Add or verify your contact information in the **Contact Info** section.

Select the **Add Colleague** button to easily add up to five other healthcare providers with whom you most frequently collaborate to easily include them in Video Visits.
2.1.1.1 Join Another Provider’s Video Visit

1. In Preferences, an additional provider that needs to join another provider’s video session goes to Settings -> Preferences -> Contact Info & Colleagues and then enters provider’s VA email address in “Additional Email Address”, selects “Save & Close”.

2. Now, the additional provider should be able to see all of the other provider’s video visits in “My Workspace”. They will be interspersed with the additional provider’s own visits but in the details, the additional provider will see the provider’s name for the particular one scheduled.

3. As long as the additional provider is viewing the appointment during the time of the visit, the additional provider should be able to select “Start Video Visit” and join the visit.

2.1.2 Notifications

Use the Notifications tab to set preferences for how you are notified or reminded about upcoming video appointments.

Note: You can opt out of receiving notifications by choosing the No radio-button, but all new appointments will result in an initial email notification, confirming the appointment creation.
2.1.3 Clinics for Schedules

The Clinics for Schedules tab allows you to link your user information profile with the profiles of up to ten of the healthcare provider clinics you communicate with most frequently.

1. Select the Add Clinic button to reveal the search field. Begin typing and a drop-down selection list will populate using that criteria.
2. Scroll to search through the results and make a choice or enter more characters to refine the options available. Choose the healthcare clinic from the list to add it to the tab.
3. Choose additional clinics if needed.
4. Quickly revise the list of added clinics by selecting the “X” on the right side of the clinic name to remove it.

2.2 Help
2.3 About VCM

The Virtual Care Manager (VCM) app enhances clinical care for VA clinicians and schedulers by integrating telehealth and digital health solutions.

Clinicians can:
- view their entire schedule, including in-clinic and telehealth appointments, all in one place
- create, manage, and join video appointments for Veterans
- access 911 services at a Veteran’s location

Schedulers are provided an easy search capability to support creating video appointments for clinicians across their facility.

3. External Apps

Select External Apps to launch other VA applications from Virtual Care Manager. These applications will open in a separate browser tab or window. In VCM 2.1 the applications available are Annie, Image Viewing, and VVC Now.
4. Feedback UI
Feedback UI button is available just below the header bar in VCM from both My Workspace and Patient Care. The link to the Feedback UI application gives users an opportunity to provide comments about VCM. Selecting the Feedback UI button causes the Feedback UI application to open in a new tab or window.

5. Patient Care Tab
This tab is the Patient Care area of VCM, which provides information related to the selected patient.

Note: To create an appointment for a patient, they must be in the current Veterans Health Information System and Technology Architecture (VistA). Otherwise, refer to Section 6.1.3 Create New Video Visit for a Single Veteran (Email Only).

5.1 Patient Search – Select Patient
Patient searches are supported by three categories, or filters, for focusing the search criteria:

- Name
- Clinic
- Ward

5.1.1 Patient Name Search
The default view on the Name search screen displays the most recent patients in a list on the right.
To search for a patient by name:

1. Begin typing all or part of the **patient’s last name** or **Social Security Number (SSN)** (SSN search with or without dashes, OR the “Last Init + SSN Last 4” (e.g., S1234)) in the search field. Results will appear on the right side of the screen, generated by the characters typed in the search field. Enter more characters to narrow the search results.

2. Scroll through the results to find the name, expand the record to confirm the identified patient by selecting the “+”, or **plus-sign** to the right of their name.

3. Confirm by using the **Select** button with their name.
5.1.2 Clinic Search

The default view on the Clinic search screen displays the most recent clinics in a list on the left. Clinic Search is not available for future dates. To search for a patient in Clinic, the date range must be on or earlier than the current date.

To search for a patient by Clinic:

1. Begin typing the **clinic name**. Results will appear on the right side of the screen, generated by your search criteria.
2. Search by Clinic does not support future dates.
3. Scroll through the results to find the patient name, expand the record to confirm the identified patient by selecting the “+”, or **plus-sign** to the right of their name.
4. Confirm by using the **Select** button with their name.
5.1.3 Ward Search

The default view on the Ward search screen displays the most recent wards in a list on the left.

To search for a patient by Ward:

1. Begin typing the **ward name**. Results will appear on the right side of the screen, generated by your search criteria.

2. Scroll through the results to find the patient name, expand the record to confirm the identified patient by selecting the “+”, or “plus-sign” to the right of their name.

3. Confirm by using the **Select** button with their name.

Once a patient is found in the search results and they are selected, details for the patient in context will display in a banner at the top of the screen, with quick-access buttons for additional information and messaging.

4. Revert to the Patient Search screen by choosing the **Select New Patient** button on the right side of the details banner.
5.2 Appointments

5.2.1 Upcoming Appointments
Scheduled appointments for a patient can be viewed within their Appointments tab. Appointments displayed include TeleHealth, Traditional (In Person), and Telephone.

If the appointment is TeleHealth, a video camera icon displays in the list view. If the Clinic name contains “Phone” or “Telephone”, a telephone icon displays. Traditional non-telephone appointments do not have an icon.

5.2.1.1 Appointment Filter
1. Expand or minimize the date range Filter using the From and To fields, and then select the Update button for the modified results to appear. A three-month default range will appear automatically
2. Select an appointment from the results to view the Appointment Details.

5.2.1.2 Patient Participant Badge
If a patient has had a Video Visit within the past 2 years, a badge displays with the patient information at the top of the page.

5.2.1.3 Appointment Details View
In the Appointment Details, there are appointment management buttons for TeleHealth appointments, such as a Resend Notification button for updates to appointments, a Start button for Video Visits, and a Cancel Appointment button.

Note: Traditional and Telephone appointments cannot be managed from VCM.
5.2.1.4 Start a Video Visit
To initiate a video visit, select the Start Video Visit button. This will direct you to the VVC application (Web or iOS, depending on your device type).

5.2.1.5 Cancel Appointment
Note: Cancellation is not available for clinic-based and store-and-forward appointments

1. While on the details screen for an appointment, select the Cancel Appointment button at the bottom of the screen.
2. A confirmation modal will appear, giving you the opportunity to stop the cancelation before proceeding. Select the Yes, Continue button to proceed.
5.2.2  Create New Video Visit

1. On the Patient information screen, select the **Create Video Visit** button to schedule a new Video Visit.

2. Indicate who is creating the appointment. The visit information form will default to the **Yes** radio-button, meaning the appointment is for you, the provider.

   **Note:** If you are **not** the provider, choose **No** to create the appointment for someone else. Follow **Steps a-d** in this section to create an appointment for a single participant, on behalf of someone else.
• **Create a New Video Visit for Others**

  ![Create Video Visit](image)

  a) Type in the search field and a drop-down will populate based on the characters entered.

  ![Create Video Visit](image)

  b) If the characters entered include a typo or for any other reason do not match a name in the system, an error note will appear in the drop-down; adjust as needed to find the correct name.

  c) Choose the name from the list and it will be added to the appointment as the care provider.

  d) If the name is not found, enter the First Name, Last Name and Email address for the care provider manually.
e) **At this time, continue to one of the following sections** to complete creation of the new appointment:

- If you are creating a Video Visit for one participant, continue to **Step 3** and the following steps in this section, to complete creation of the appointment.
- If you are creating a Video Visit for a Single Veteran (Email Only), return to **Step 5** in *Section 6.1.3 Create New Video Visit for a Single Veteran (Email Only)*, to complete creation of the appointment.
- If you are creating a Group Video Visit, return to **Step 5** in *Section 6.1.4 Create New Group Video Visit*, to complete creation of the appointment.

3. Add or verify your contact information.
4. Indicate whether it will be an ATLAS appointment. The option will default to **No**.
5. Set the date, time, and duration of the appointment.
6. Verify that the patient has agreed to receive messages about appointments by checking the box.
7. Selecting the “i” icon will open a modal explaining the messages the patient will receive.

INFO ON PATIENT RECEIVING MESSAGES

Email

Selecting or entering an email address indicates the patient agrees to receive an initial email today.

If applicable, an email reminder will be sent 7 days, 3 days, and 1 day before and the day of the Video Visit.

Email will be sent from VideoAppointment@va.gov

Phone for Text

Selecting or entering patient phone will result in patient receiving text messages at this phone number for Video Visits and possibly other VA Mobile applications. This will remove any STOP that the patient may have previously sent related to text for VA Mobile Apps.

The patient can re-enter STOP to text messages if they desire.

Text will be sent to patient on creation and 30 minutes prior to Video Visit.

Text to patients will be received from 86018.
8. Select the email and/or phone number for the patient. Patient contact information from Vet360 and from previous VCM appointments will be displayed. If neither is accurate, a new email and/or phone number can be entered. If the patient does not wish to receive text notifications and reminders, select None.

**Note:** At least one Email OR Phone number must be included for an appointment. To update the patient’s contact information, check the box “Patient Requests this email/phone be their preferred contact information for all VA Communications.

![Create Video Visit](image)

**Note:** The Patient is invited by default. If the appointment is to be held with a Caregiver or other VA Staff, the Patient may not be included. At least one participant beside the Provider must be included to create the video visit.

9. Once all required appointment details have been added, select the **Create Video Visit** button to complete scheduling.

A confirmation modal will appear, displaying the appointment details.
5.2.3 Create New ATLAS Appointment

1. On the Patient information screen, select the **Create New Appointment** button to schedule a new Video Visit.

2. Indicate who is creating the appointment. The visit information form will default to the **Yes** radio-button, meaning the appointment is for you, the provider. If you are not the provider, you will choose the **No** radio-button to create the appointment for someone else.

3. Indicate it will be an ATLAS appointment by choosing the **Yes** radio-button. The system will default to the **No** radio-button.
4. Identify the zip code and desired mileage range, to generate a list of providers available in the surrounding area. Select the desired location for the appointment.

5. Select a date to generate a list of ATLAS Site appointment start-times for available half-hour timeslots.

Note: If the timeslots shown for a specific date do not meet the requirements of the patient or provider, simply choose a different date, and select the Update Availability button to generate a fresh list of timeslot choices.

6. Choose the desired date, and verify it appears as intended.
7. Select the Create Video Visit button, then confirm creation of the appointment when prompted by selecting the Yes, Create button. The appointment confirmation modal will appear.
5.2.4 Resend Video Appointment Information

To resend an invitation or to adjust the email associated with a video visit appointment:

1. Access the Appointment Details view for a patient. (see Section 5.2.1 Upcoming Appointments for more information about navigating to the screen)

2. Select the Resend Invite/Edit Email button for the Resend Video Appointment Information modal to appear.

3. Verify the email shown, and revise it as needed by selecting the Edit Email button. When changing contact information for a participant, you must verify that the patient has agreed to receive messages at the updated email and/or phone.
Note: Any saved modifications to the email will result in the generation of a new video visit access link. The new link ensures only the intended recipient has access to the appointment.

4. On the email editing screen, verify whether the updated email should become the default record for all future Video Visits.
5. Select the Send button once the contact information is complete.

5.2.5 Guests
When creating a Video Visit for a single Veteran, Guests can be invited to participate. The Guest email is required. First and Last Name are optional. Invited Guests will receive an email Notification of the Video Visit Notification and will join the Video Visit in a Guest role. Up to 5 Guests can be invited.
5.2.6 VA Staff
When creating a Video Visit for a single Veteran or a Group, additional VA Staff can be invited to participate. Additional VA Staff will receive an email Notification and will join the Video Visit in a Host role. Up to 5 Additional VA Staff can be invited.

5.2.7 Additional Instructions
Additional Instructions are optional and will be included in the email Notification and Reminders to the Veteran. Additional Instructions have been pre-screened for PII/PHI. Options for Additional Instructions include “Video Visit Preparation” and “Medication Review”.

Video Visit Preparation

Instructions That Will Be Sent to Patient

The VA is excited to offer you this upcoming appointment using video telehealth. The Virtual Medical Room platform is simple to use and will only require an application download for iPad and iPhone products. All other home devices will NOT require any software/application download. Because we want you to have the best possible video experience, we suggest the following:

Connect to your video appointment from a location that is quiet, private, and well lit.
5.3 Patient Data
Patient data—both self-entered and from VA Electronic Health Records, can be viewed from the Patient Data tab.

5.3.1 Vitals
The default tab for Patient Data is Vitals. When the Vitals tab is selected the data displays in the right panel if there is data to be shown. The default data view is graph.

5.3.1.1 Vitals Filters
The default date range is from one year prior to the current date, through the current date. Vitals Measures are selectable from the filter on the left panel. The default measures are Blood Pressure, Pulse, Weight, Pulse Oximetry, and Pain. There are two potential sources of Vitals data; PGD (Patient Generated Data) and EHR. Both are selected by default.

The date and time for each set of Patient Data displays in the user’s browser time zone.

There is an option on each graph header to change the display to a table view.
There is also an option on each graph header to change the display to a full screen view.

5.3.2 Labs
There is an option in Patient Data to view Labs information. When the Labs tab is selected the data displays in the right panel if there is data. The default data view is graph.

5.3.2.1 Labs Filters
The default date range is from one year prior to the current date, through the current date. Vitals Measures are selectable from the filter section. There are two potential sources of Vitals data; PGD (Patient Generated Data) and EHR. Both are selected by default.
1. Select a row in the Labs list to open a display of that data. A dot icon in the row indicates that there is Patient Generated Data (PGD) available.

The date/time for each Patient Data displays in the user’s browser time zone.

There is an option on each graph header to change the display to a table view.
There is also an option on each graph header to change the display to a full screen view.

5.4 Condition Graphs

Condition Graphs from Patient Care offer views specific to Patient conditions based on data submitted via other VA Applications like Sync My Health Data.

When Condition Graphs is selected, the Condition Graph options display in the List View. The default view for Condition Graphs is from 3 months before the current date to the current date. The filter can be hidden by selecting the Hide Filter text or icon.
5.4.1 Activity
The Activity graph provides a view of the patient’s daily total steps and distance. Daily Miles are displayed as a bar with the daily steps displayed as a line graph.

Consistent with the Patient Data graphs, there is an option on each graph to view the data in a table by selecting the table icon. Graph views can be zoomed in using the mouse roller. The button at the bottom right of the graph resets the zoom.

Graph legends can be selected to display or hide data displayed in the graph.

5.4.2 Daily Heart Rate
The Daily Heart Rate graph provides a view of the patient’s daily Maximum, Average, and Minimum Heart Rate as a line graph.
5.4.3 Sleep Metrics
The Sleep Metrics graph provides a view of the patient’s daily sleep pattern. Sleep metrics of Awake, Light, Deep, and REM are displayed as a stacked bar, with the sleep score displayed as a line graph.
6. **My Workspace Tab**

The My Workspace area of the system provides the full schedule of upcoming appointments for the authenticated user.

6.1 **Schedule**

This menu option allows the creation and management of appointments for patients not in the current facility’s Veterans Information Systems and Technology Architecture (VistA), a single patient in the current VistA facility, as well as group appointments for healthcare treatment of multiple patients at the same time.

6.1.1 **Upcoming Schedule**

6.1.1.1 **Schedule Filters**

1. Set the date range Filter using the From and To fields, and then select the **Update** button for upcoming scheduled appointments to appear.

2. Narrow the results down further by using My Email Preferences or Clinics filters, by checking or unchecking the checkboxes for each choice, and selecting the **Update** button again to modify the scheduled appointments shown.

3. Select an appointment from the results listed below the search filters, to view the Scheduled Appointment Details modal.
6.1.2 Schedule List View
Scheduled appointments for the Provider can be viewed within their Schedule tab. Appointments displayed include TeleHealth, Traditional (In Person), and Telephone.

If the appointment is TeleHealth, a video camera icon displays in the list view. If the Clinic name contains “Phone” or “Telephone”, a telephone icon displays. Traditional non-telephone appointments do not have an icon.

In the Appointment Details, there are appointment management buttons for TeleHealth appointments, such as a Resend Notification button for updates to appointments, a Start button for Video Visits, and a Cancel Appointment button. Traditional and Telephone appointments cannot be managed from VCM.

6.1.3 Create New Video Visit for a Single Veteran (Email Only)
Patients not in the current VistA cannot be located via Patient Search on the Patient Care tab. This means that to make an appointment for them, you will go to the My Workspace tab instead.

To create a new appointment for a Single Veteran (Email Only):
1. On the My Workspace tab, select **Schedule** from the menu on the left.

2. Select the **Create Video Visit** button.
3. Maintain the default selection of **Single Veteran (Email Only)** in the Type of Video Visit field.

4. Indicate who is creating the appointment. The visit information form will default to the **Yes** radio-button, meaning the appointment is for you, the provider.

   **Note:** If you are not the provider, you will choose the **No** radio-button in this step, to create the appointment for someone else. Follow the **Steps 2a-d** in Section 5.2.2 *Create New Video Visit*, for images and instructions for creating a video visit on behalf of another healthcare provider.

5. Set the date, time, and duration of the appointment.

6. To add a patient to the appointment, you can either search for the patient, or add their information manually. If the patient is in the VistA facility patient list, you can Search for the Patient by name or SSN. The patient’s name will pre-fill. If the patient has preferences from a previous appointment, the email and phone will also pre-fill.

7. If the patient is not found in the search, you can select Add Veteran Manually.
8. When the patient is selected, verify that they have agreed to accept messages, then select the correct email and/or phone, or enter a new email and/or phone. If the patient has not agreed to receive text messages, select “None” for phone.
9. If you know the patient is not in the VistA facility, select to Add Manually directly by selecting the radio button, verify that the patient has agreed to receive email and/or phone messages for the appointment, and then enter the patient information.
10. Once all required appointment details have been added, select the **Create Video Visit** button to complete scheduling.

### 6.1.4 Create New Group Video Visit

To create a new Group Video Visit appointment:

1. On the My Workspace tab, select **Schedule** from the menu on the left. The default viewing pane will display a single-day range for scheduled appointments.
2. Select the **Create Video Visit** button, and the entry form modal will appear.
3. Select the **Group Video** radio-button in the Type of Video Visit field.

4. Indicate who is creating the appointment. The visit information form will default to the **Yes** radio-button, meaning the appointment is for you, the provider.

   **Note:** If you are not the provider, you will choose the **No** radio-button in this step, to create the appointment for someone else. Follow the **Steps 2a-d** in **Section 5.2.2 Create New Video Visit**, for images and instructions for creating a group video visit on behalf of another healthcare provider.

5. Add or verify your contact information.

6. Set the date, time, and duration of the appointment.
7. Create a group by adding the Group Name.

8. Establish the group membership by selecting the Add Veteran button to reveal the search field.

9. Begin typing all or part of the patient’s last name or Social Security Number (SSN) (SSN search with or without dashes, OR the “Last Init + SSN Last 4” (e.g., S1234)) in the search field. A drop-down selection list will populate using that criteria.

10. Scroll to search through the results and make a choice or enter more characters to refine the options available. Choose the patient from the list to add them to the group.
    When the patient is selected, verify that this is the correct patient, verify that they have agreed to receive messages.
11. Check the box to verify that the patient has agreed to receive communications (messages) about this appointment. Messages can be either email or text. Patients must receive either an email, or an SMS text message, or can elect to receive both.

12. When the box is checked, options for the patient display. If the Patient has preferences set from Vet360, that will display first. If they have preferences set from previous Video Visits in VCM, that will display next. There is an option to enter a new/different email above these options.
   - Select the appropriate email, or enter a new email
   - If the user has agreed to receive SMS, select the correct phone number
   - If the user has NOT agreed to receive SMS, select None

13. To update the Patient’s preferred email and/or phone number, check the box to indicate that the Patient requests this email/phone be their preferred contact information for all VA Communications. When the “Patient requests this email/phone be their preferred contact information for all VA Communications” box is checked, and the appointment is created:
   - The selected email will be updated and only that email will display the next time an appointment is created
   - If a phone number was selected, only that phone will display the next time an appointment is created
   - If “None” is selected for the phone number, the phone numbers will not be updated. The patient will NOT receive a text message for the appointment.
14. Add the Veteran to the group by selecting **Add Veteran** button.

15. Select the **Create Video Visit** button to create a new appointment for the group displayed.
16. In the Create Appointment modal, confirm by selecting the Yes, Create button. The appointment confirmation modal will display.

If the date of the Video Visit just created is outside the currently filtered Date Range, a modal displays at the top right of the page.
6.2 Managing Group Participant List

The group appointment video visit summary view provides the choices to Add Veterans to the group appointment, or to Resend Appointment Invitations to attendees.
1. Select the **Add Veteran** button to access the patient search form.
2. Begin typing all or part of the **patient’s last name** or **Social Security Number (SSN)** (SSN search with or without dashes, OR the “Last Init + SSN Last 4” (e.g., S1234)) in the search field.

   ![ADD VETERAN TO GROUP](image)

   **Search for Veteran to Add to Group**

   *Search Patient by Name or SSN...*

   You may add up to 30 veterans. One veteran is required.

   ![ADD VETERAN TO GROUP](image)

3. A drop-down menu will appear, generated by the characters typed in the search field. Enter more characters to narrow the search.

   ![ADD VETERAN TO GROUP](image)

   **Search for Veteran to Add to Group**

   *test*

   TEST. PATIENT1
   TEST. PATIENT2

   TEST. PATIENT6

   ![ADD VETERAN TO GROUP](image)

4. Scroll through the results to find the name, select it, and then select the **Update Group** button to view the Add Veteran contact information modal.

   ![ADD VETERAN TO GROUP](image)
5. Add, verify, or adjust contact information as needed, then select the Add Veteran button to add the Veteran to the appointment. The name will be added to the list on the appointment details screen.
6.3 Guests
When creating a Video Visit for an email-only Veteran, Guests can be invited to participate. Guests are not supported for Group Video Visits. The Guest email is required. First and Last Name are optional. Invited Guests will receive an email Notification of the Video Visit Notification and will join the Video Visit in a Guest role. Up to 5 Guests can be invited.
6.4 VA Staff
When creating a Video Visit for an email-only Veteran or a Group, additional VA Staff can be invited to participate. Additional VA Staff will receive an email Notification and will join the Video Visit in a Host role. Up to 5 Additional VA Staff can be invited.

6.4.1 Details View
On the group appointment details view, multiple group visit management choices are available, which allow you to manage appointment attendance, notifications for attendees, future appointments with the same group, and the ability to start the video visit appointment.
6.4.2 Copy Appointment (Create Additional Appointment)
To create a new appointment based on an existing group:

1. While on an appointment details screen for the group, select the Create Additional Appointment button toward the bottom of the screen, to copy the attendance of the meeting into a new appointment.

2. Follow the steps in Section 6.1.4 Create New Group Video Visit.

6.4.3 Cancel Appointment
To cancel a group appointment:

1. While on the details screen for the appointment, select the Cancel button at the bottom of the screen.

2. A confirmation modal will appear, giving you the opportunity to stop the cancelation before proceeding. Select the Yes, Continue button to proceed.

6.4.4 Resend Video Appointment Information
To resend an invitation for a group appointment, or to adjust the attendee contact information:

1. Access the Appointment Details view for a group appointment. (see Section 6.4.1 Details View for more information)
2. Select the **Resend Invite/Update Email** button below the participant list, for the Resend Video Appointment Information modal to appear.

3. Verify the names and emails displayed. Revise the contact information as needed by selecting the **Edit Email** button for the participant that needs to be modified. An editable field will appear below their contact information, for you to modify the email address after the checkbox to verify that the patient agrees to receive messages has been checked.

   **Note:** Any saved modifications to the email will automatically result in the generation of a new video visit access link going out to all attendees, regardless of whether their name has been checked. The new link ensures only the intended recipients have access to the appointment.
4. Below the email editing field, use the **Update email of record for future Video Visits** checkbox to verify whether the updated email should now become the default record for all future Video Visits for the participant.
5. Verify and adjust emails of other participants, if needed.

Schedule Manage Video Visit. The user can select the check box to resend to all veterans in the group.

![RESEND VIDEO APPOINTMENT INFORMATION](image)

6. Select the **Send** button once changes are complete, and all participants will receive a new, unique link to the group video visit appointment.

**Note:** If no changes were made to the contact information, only those participants with a selected checkbox will receive a resent notification, and it will include the same URL that originally went to the group.

**6.4.5 Remove Group Video Visit Attendees**

1. Revise the attendee list for a group video visit, by selecting the “X” on the right side of the name to remove it.
2. A confirmation modal will appear. Select the **Yes, Continue** button to complete removal of the participant.

6.5 **e911**

The e911 feature in VCM provides a 24/7 service for:

- Pre-validating whether 911 service is available at a patient’s location during the time of the video visit
- Obtaining a temporary phone number to dial, valid for 10 minutes for 911 at the pre-validated location
- In the continental United States, Hawaii, Alaska, Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Saipan, and the Northern Mariana Islands.

**NOTE:** Do not make test calls!
6.5.1 **Set Patient Location and Address Information**

1. Enter the patient’s name.
2. The default location is USA and other locations can be selected from the dropdown list, including American Samoa, Guam, Northern Mariana Islands, Saipan, and US Virgin Islands.
3. Enter Street Number, Street Name, Additional Detail, City, State, and Zip Code.
4. **Select Pre-validate Address** to validate if e911 is available.
5. Verify the Address is Validated for e911. If the address entered has 911 service, then a green checkmark will appear at the bottom, stating:

“The address you entered has been validated for e911.”
6.5.2 **Emergency Use of e911**

1. **In *Callback Phone Number*: Type your own or a clinic emergency must-answer 10-digit callback phone number (no extension). The callback number should be a phone number that a 911 operator can use to reach you, the VCM user.

2. **Select "Request Emergency Contact Number"** to receive a temporary phone number that is valid for 10 minutes to call 911 at the participant's location.
3. Using a landline telephone or mobile phone, call the phone number displayed to connect directly to 911.

4. If address pre-validation is not available, when pre-validate is selected, a general emergency number displays. Call this number to reach 911 services that will contact 911 at the patient’s location.

6.5.3 After Calling e911

After calling e911, submit the following information:

- Report use of the VCM e911 relay services by following your local facility procedures, and to your Facility Telehealth Coordinator
- Provide feedback about the VCM e911 feature, or for administrative questions, contact the Office of Connected Care Technology Help Desk.
6.5.4 Technical Support
Call the Office of Connected Care Help Desk at 866-651-3180 or 703-234-4483, 24 hours a day, seven days a week, or email them at: VHA_OCCHD@va.gov

6.5.5 Additional Resources
Further information and guidance are available in the following documents:

- Virtual Care Manager App Store
- VA Telehealth Services Intranet Site for Virtual Care Manager

7. Configuration Tab
The Configuration area of the system will only be visible to VCM users who have access to an activity under Configuration (e.g.: ATLAS Support).

7.1 ATLAS Support
This menu option allows the ability to view a complete list of ATLAS sites as well as the creation and maintenance of sites. The user (ATLAS Support Admin) will see the option for Sites (selected by default) and Templates.

7.1.1 Sites
All ATLAS Sites will display within the Sites tab. The user can create and maintain meta-data for all ATLAS Sites. Slot availability can be determined and applied to each site as the user is creating or modifying site details.
7.1.1.1 ATLAS Site Filters
The filter will default to display all ATLAS Sites that include a status of ‘Active’, ‘Inactive’, and/or ‘Archived’

1. Narrow the results down further by unchecking or checking the checkboxes for a given status or entering text within the Keyword Filter field and selecting the Update button.
2. Select a site from the results listed below the search filters, to view that specific site’s details view.

7.1.1.2 Create New ATLAS Site

1. Select the Create New Site button in order to create a new site and enter meta-data for that site.
2. All required fields must be satisfied in order to create the site.

Note: Required fields - Site ID, Site Name, Time Zone, Map Coordinates (longitude/latitude), Physical Street Address, Site Contact Information, Primary POC, Site Status, Is site open on Federal Holiday...?, Number of ATLAS Rooms at Site
a. Number of ATLAS Rooms at Site will include an Add Room button:
   i. Selecting the Add Room button will display a card that includes checkboxes for each day of the week (unchecked by default).
   ii. If the status of the room is inactive, then the days of the week checkboxes cannot be checked (disabled).
   iii. If the status of the room is active, then the days of the week checkboxes can be checked (enabled) and upon selection a table displays for each day of the week checkbox that was checked.
   iv. Each table will include columns for Start Time, Duration, and Status (all null by default).
   v. Selecting the Edit Schedule button for a given day of the week table will display a modal to provide the slot availability.
vi. Default setting for slot availability will be to **Create Custom**, but user can select the **Use Existing Template** option in order to add a table that includes pre-populated slots (referenced further down). Each table will include one row by default with the following columns:

- Start Time for the slot will default to 08 00 and selections for hour/minute can be adjusted that would take up the 24 hour clock.
- Duration will default to 30 (minutes) and selections can be modified to either 15, 20, 30, or 60.
- Status will default to **Open**. User can select **Blocked** from the dropdown.

vii. Selecting the **Add Slot** button will add more slot rows to the table. (Note: Slots cannot overlap, must be in sequential order, and cannot exceed 24 hours).

- Slot rows can be removed by selecting the **x** icon to the right of each row (with exception to the first slot row).

viii. The user can apply the created schedule for other days of the week in which the site is open by selecting the checkboxes below (if applicable), but slots that were already booked will not be changed. In addition, any changes made to the schedule will override changes made to the slot status report for that site on a given date (reference in slot status report section).
b. Completing ATLAS site creation (meta-data form):
   i. Select the **Create** button when all required fields are satisfied and the site will be created. User will be redirected back to the Sites list view page upon confirming site creation. (Note: If, for any reason, the user wants to cancel out of the form, they can select the **Cancel** button which will not save their changes and direct them back to the Sites list view page).

---

**7.1.1.3 ATLAS Sites List View**

The list view for ATLAS sites on the left hand panel will display the status and date range from when that site will be active until (Note: Inactive sites will not include a date range). List view will also display the name and the physical address for a given site.

**7.1.1.4 ATLAS Site Details View**

The details view for an ATLAS site will be in view once the site on the list view panel is selected. It will display read-only data for that given site provided by the user upon creation.

**7.1.1.5 Edit ATLAS Site**

An ATLAS Site can also be modified as the user deems necessary by selecting the **Edit** button located in the lower right corner of the site details view.
Once in edit mode, the user will be able to view the site fields they can modify and Save (Note: Site ID cannot be modified once the site has been created).
7.1.1.6 Slot Status Report

Within a site’s details view, there will be a **Slot Status Report** button. Upon selection, the slot status report will be generated to view details for that site’s slot availability on a given date. The generated date will default to today, however the user can change the date to find details for a site’s slots in the past as well as in the future.

a. For reports generated in the past, it will display read-only details for booked appointments and the user will not see info for slots that were not booked.

b. For reports generated today or in the future, it will display details for open, blocked, and/or booked slots. For this type of report, the user can modify whether they want to change the slot availability to ‘Open’ from ‘Blocked’ or vice versa. (Note: any changes made to a site’s slot status report for a given date will not be reflected in the schedule for slot availability within the ATLAS meta data form as this change was made for a specific date and not for day(s) of the week in general. In addition, when slot status report is updated for slots that were not booked, and afterwards that site’s schedule was updated, then those changes will override the updates made to the slot status report (with exception to booked slots)).
### Slot Status Report

**Site Name and Address:**
- ATLAS SITE
- 000 Maple Lane
- Anytown, XX 00000

**Report Date:**
- 02/12/2020

**Current Site Status:**
- Active (from 01/20/2019 to 10/04/2020)

---
Templates provide convenience for ease of use across sites. Templates are schedules that can be created in advance in order to apply slot availability to sites for days of the week (for a given room). Any changes to templates on this view will be available on the Sites tab when applying site slot availability for a room on specific days of the week.

7.1.2.1 Template Filters
   a. The filter will default to display all templates that were created by an ATLAS Support Admin
   b. Narrow the results down further by entering text within the Keyword Filter field and selecting the Update button.
   c. Select a template from the results listed below the search filters, to view that template’s details view.

7.1.2.2 Create New Template
   a. Select the Create New Template button in order to create a new template.
   b. Required fields – Template Name, Template Description, and Availability.
   c. By default one row will display within the Availability table for Start Time, Duration, and Status. User can add or remove slots.
      a. Start Time for the slot will default to 08 00 and selections for hour/minute can be adjusted that would take up the 24 hour clock.
      b. Duration will default to 30 (minutes) and selections can be modified to either 15, 20, 30, or 60.
      c. Status will default to Open. User can select Blocked from the dropdown.
   d. Select the Create button when all required fields are satisfied and the template will be created.
e. The user will be redirected back to the Templates list view page upon confirming template creation.
7.1.2.3 Templates List View
The list view for templates on the left hand panel will display the template name and description.

7.1.2.4 Template Details View
The details view for a given template will be in view once the template on the list view panel is selected. It will display read-only data for that given template provided by the user upon creation.

7.1.2.5 Edit or Delete Template
A template can also be modified or deleted as the user deems necessary by selecting either the Edit button or the Delete button within the template details view. (Note: Deleted templates cannot be recovered)

7.1.2.6 Applying an Existing Template to an ATLAS Site’s Slot Availability
a. Navigate back to the Sites tab
b. Select an existing or create a new site
c. Add an active room under the Number of ATLAS Rooms at Site section (if not already added)
d. Select a checkbox for any day of the week (if not already checked)
e. Select the Edit Schedule button for a given day of the week table. A modal displays to provide the slot availability.
   f. In the previous steps, a custom schedule was applied to the site slot availability. However, now since the user has created a template (from the Templates tab) they can choose from existing templates that were created.
g. Under Slot Availability, select the **Use Existing Template** option
h. From the **Select a Template** dropdown field, a list of templates will display to select from
i. Select a template from the listing
j. A table displays with pre-populated slot information at the time the template was created.
   Note: Any changes to slot availability here does not change the original template. Template
   changes must be made in the Templates tab.

![Edit Schedule Interface]

k. Each table will include the following columns:
   a. Start Time for the slot will pre-populate with what was given by the user at the time of
      template creation. Selections for hour/minute can be adjusted that would take up the
      24-hour clock.
   b. Duration will pre-populate with what was given by the user at the time of template
      creation. Selections can be modified to either 15, 20, 30, or 60.
   c. Status will pre-populate with what was given by the user at the time of the template
      creation. User can change Status between Open and Blocked from the dropdown.
      i. Selecting the Add Slot button will add more slot rows to the table. (Note: Slots
         cannot overlap, must be in sequential order, and cannot exceed 24 hours).
         1. Slot rows can be removed by selecting the x icon to the right of each
            row (with exception to the first slot row).

l. The user can apply the created schedule for other days of the week in which the site is open by
   selecting the checkboxes below (if applicable), but slots that were already booked will not be
   changed.
