VA Mobile Discussion Series

Connected Care Highlights from Nurses and Caregivers & What's Next for the VA Mobile Discussion Series

Presenters:

Abigale Boerger RN, BSN – Home TeleHealth Care Coordinator

Hollie-Lyn James, LMSW - Caregiver Support Coordinator

Overview of the Discussion

- Overview and Introductions
- VA Technologies for Discussion
 - VA Video Connect
 - My HealtheVet
 - Annie
 - Home TeleHealth
- What new with the Discussion Series
- Closing Remarks and Survey

VA Video Connect (VVC)

- Connects Veterans with their health care team from anywhere, using encryption to ensure a secure and private session.
- Makes VA health care more convenient and reduces travel times for Veterans
- VA Video Connect works on nearly any device that has an internet connection and a web camera.

Annie

- Annie App helps providers support Veterans engage in self-care
- Assign protocols to patients to that prompt them to track and submit health information.
- Messages from Annie are automated and condition-specific.
- Request and receive health readings from patients, such as blood pressure, glucose, caloric intake and more.

Home Telehealth

- Uses messaging devices that collect information about symptoms and vital signs from the comfort of a Veteran's own home.
- The most common home telehealth devices VA uses make it possible to connect a Veteran to VA hospital.
- A care coordinator is the point of contact for a patient using a home telehealth device with a VA hospital.
- Home Telehealth can connect a Veteran to a VA hospital from home using regular telephone lines, cellular modem and cell phones.

My HealthVet

- VA's Personal Health Record
- It is designed for Veterans, Servicemembers, their caregivers and others.
- Can be used to refill prescriptions, track and schedule appointments, communicate with your care team, access your health information and more.

What's New With the Discussion Series

- VA Mobile Discussion Series is expanding to the Connected Care Discussion Series.
- The goal is to showcase the many ways Connected Care can help deliver quality care when and where it is needed.
- Instead of focusing on just mobile applications, the updated series will focus on how to integrate strong practices with these tools.

Thoughts on how we can improve?
